- When user click on Book or Make order or Book, we will direct him to the Info page. There can makes a new order and fills the form

Info Page

A screenshot of the 'Book Appointment' form on the MediTro website. The header is identical to the homepage, with 'Book' highlighted in orange. The form is titled 'Book Appointment' and contains several input fields: 'select service', 'select city', 'Type notes' (a larger text area), 'Type your name', 'Type your email', and 'Type your Phone'. An orange 'Appointment Now' button is at the bottom right of the form. A Windows watermark is visible in the bottom right corner.

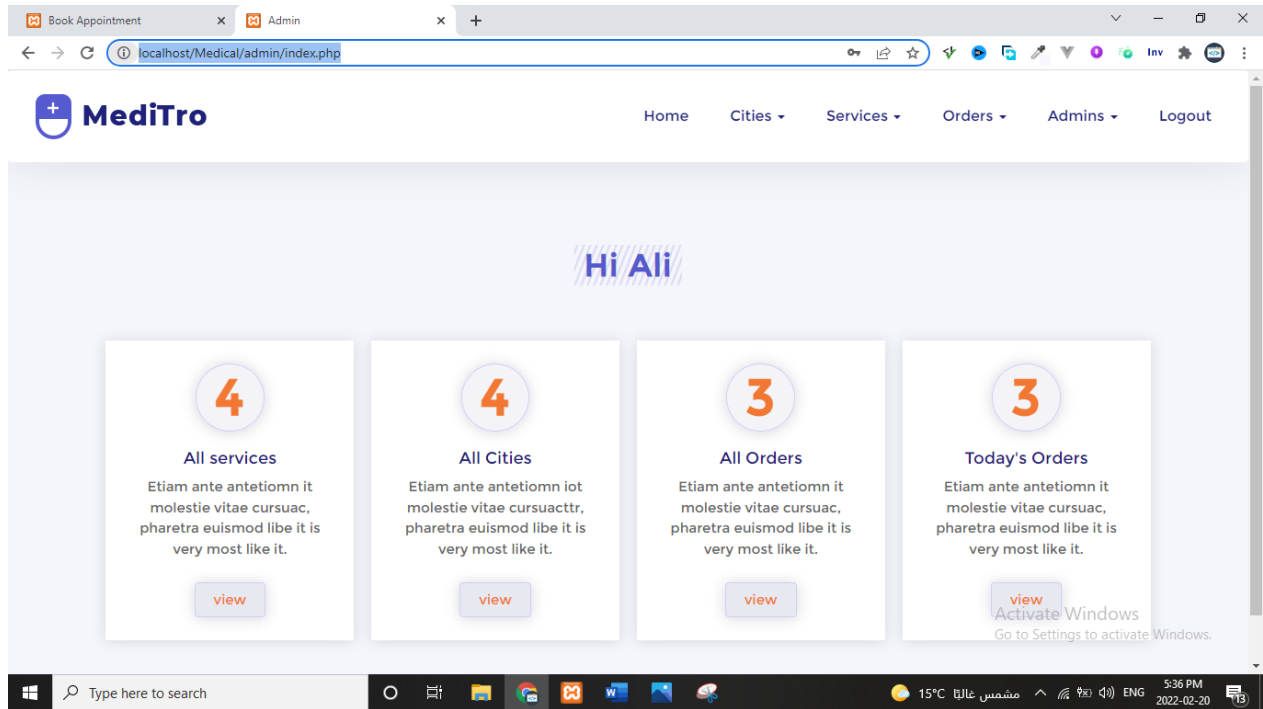

- Here types of services. admins can control the types of service, they can add to it or remove from it from Admin page
